

Technology Consulting

Enhancing your delivery through leading edge Information Technology,
Automation and Professional Services.

Capability Statement

Overview

AJQ is a leading provider of Business and IT Consulting delivering a comprehensive range of specialist services to the Banking, Financial Services, Private Enterprise, Government and Education sectors. We have office locations in both Australia and Singapore.

We work with your organisation to accelerate delivery capability, enhance skills in your teams and provide advice and guidance through specialist knowledge, software tools and expertise when and where it is most needed.

IT DELIVERY

Utilise our IT specialists and leverage our expert knowledge on your next project.

TESTING

Independent Testing Services, Automation, Functional, E2E and UAT Testing.

CYBER SECURITY

All the services our clients need to ensure they are protected from Cyber Attack.

AUTOMATION

Reduce processing times, eliminate manual tasks and improve organisational efficiency.

Services can be carried out either on-site or off-site depending on the type of service and engagement required. The delivery is fully backed by client references from some of the most trusted companies operating today.

We tailor our service delivery to match customer needs and provide lasting benefits

- **IT Delivery** Professional Services including Consulting, Project Management and Agile Project Delivery
- **Cyber Security** Security Review, Vulnerability Assessment, Penetration Testing and Program Support
- **Software Testing** Delivery of testing across all phases
- **Automation** Development and Testing as well as Bot As A Service (BAAS) allowing for rapid deployment of automation to reduce operational processing times through an on demand service
- **Resource Augmentation** Supply of onsite delivery roles including Project Managers, Change Managers, Business Analysts, Subject Matter Experts (SME's), Testers, Engineers
- **IT Specialist Recruitment Services**

Capability Statement

What makes us different?

- **Trusted** We take a trusted partner approach to all that we do with a proven track record of delivery
- **Responsiveness** Ability to respond to requirements quickly and ramp up fast
- **Flexible** Pragmatic approach to delivery & flexible types of commercial engagements through time & material, fixed price or outcome based delivery
- **Locations** Access our highly skilled talent pool based across Australia and Singapore allowing for localised and offshore delivery options
- **Specialists** We have focused on building a specialist capability across key sectors and our team skills are suited to programs within these domains
- **Accountable** We take responsibility for Issue Management through to resolution
- **Our People** Great team culture and commitment to diversity

A strong delivery capability utilising experts with a proven track record will provide significant advantages to an organisation, including faster time to market for product launches and significant cost savings by reducing rework.
